

Careers & Higher Education Fair

# CHEF 2024

## Welcome to the Careers and Higher Education Fair

This event is designed to bring students from Years 9-13 and their parents together with a wide range of employers and universities. This will enable students to consider which jobs and university courses they are most interested in, and to work out which qualifications and skills they will need to develop. Of course, students' ideas constantly change and evolve; the purpose of this Fair is to give students new opportunities to test out their latest thoughts by hearing from industry and university experts.

The school is extremely grateful to all the employers and universities who have given their valuable time to attend this event.
